

## Corporate Health & Safety Workshops

Organizations that adopt and implement a culture with an emphasis on health and safety reap benefits that impact all areas of their organization. CBI offers an extensive array of corporate health and safety workshops to help organizations evaluate, develop and implement prevention programs to maintain safe workplaces. Training topics include:

- 10 & 30 Hr. General Industry Outreach Programs
- Active Shooter Workplace Violence Awareness & Response
- Assessing Hazards & Safety Risks
- Assessing the Costs of Workplace Accidents
- Bloodborne Pathogens
- Electrical Safety
- Emergency Preparedness & Action Planning
- Engaging the Workforce in Safety Practices
- Fire and Life Safety Preparedness Basics
- Fire Safety (Extinguisher/Evacuations)
- Hazard Communication
- Hazardous Materials, DOT & OSHA
- Hazwoper
- Incident Command System (ICS) 100-800
- Industrial Fire Brigade Training
- Lockout/Tagout
- National Incident Management System (NIMS)
- OSHA Outreach Training Institute Education Center Courses
- Planning Safety Committee Work Assignments
- Powered Industrial Truck (Forklift) Training
- Workplace Violence Prevention & Response

We also provide free, on-site safety assessments that include a tour of your facility and non-regulatory consultation. The assessment provides a basis for any remediation your organization may need to prevent worker injuries and avoid costly citations. To set up an assessment or inquire about our programs, please e-mail [safety@northampton.edu](mailto:safety@northampton.edu) or call 610-332-6596.

### Benefits of Implementing Corporate Safety Training

- ✓ Reduced Worker's Compensation insurance premiums
- ✓ Healthier bottom lines
- ✓ Increased worker morale
- ✓ Greater employee retention
- ✓ Improved worker health
- ✓ Improved corporate citizenship

## OSHA Training Institute (OTI) Education Centers

The OSHA Training Institute (OTI) Education Centers are a national network of nonprofit organizations authorized by OSHA to deliver occupational safety and health training to private and public sector workers, supervisors, and employers. These organizations are selected through a competitive process based upon their occupational safety and health training experience and they receive no funding from OSHA. The OTI Education Centers offer courses and seminars on a variety of safety and health topics. The Centers support the OSHA training mission through other safety and health programs, including community outreach efforts, courses offered in Spanish, and various youth initiatives. The OTI Education Centers help to ensure safe and healthful working conditions for working men and women by providing training on hazard recognition and avoidance to workers, employers, and other safety professionals.

### Program Background

The OTI Education Centers Program was created to meet the growing demand for private sector training received at the OSHA Training Institute (OTI) in Arlington Heights, Illinois. While OTI provides training designed for federal and state compliance officers, and state consultation program staff, the OTI Education Centers provide training for private and public sector personnel and for personnel from federal agencies other than OSHA. The program began with four organizations selected in 1992.

### Program Growth

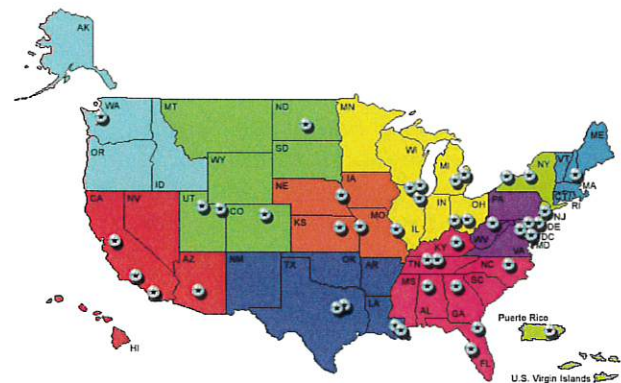

OSHA continues to add new organizations to the program to increase the availability of OSHA training for the private sector. There are currently 27 OTI Education Centers, comprised of 41 member organizations located throughout the country, including at least one in each OSHA Region. The program features permanent training locations in 24 of the 49 most densely populated major metropolitan areas in the U.S. The number of participants trained through the OTI Education Centers has increased every year since the program's inception. Between FY 2004 and FY 2013, more than 305,000 participants were trained through the OTI Education Centers.

### Who Should Attend Courses?

OTI Education Centers offer training courses designed for workers, employers, supervisors and managers. Training is offered through an open enrollment format, and on a contract basis for organizations within OSHA's jurisdiction.

### How Do I Find this Training?

A complete list of all OTI Education Centers, course descriptions, prerequisites and a searchable course schedule that includes training locations and fees can be found at: [www.osha.gov/otiec](http://www.osha.gov/otiec).

### Program Benefits

- Participants receive training on safety and health hazard recognition and abatement.
- OSHA-authorized safety and health training is available at convenient locations nationwide.
- OTI Education Centers offer customized training schedules and formats.
- Contract training courses can be delivered at off-site locations and/or with an industry-specific focus.
- Some training courses are available in Spanish to meet organizational needs.
- Some courses offer professional development opportunities, including Continuing Education Units (CEUs), and/or Certification Maintenance (CM) points.
